A Course in Spoken English

Practical English Phonetics and Phonology

The course aims at improving one's spoken English and listening skills/ability through the understanding of the important theories and applications concerning the pronunciation and speech of English. The course is divided into two parts-

Part I: Phonetics: English phonemes will be explained in terms of International Phonetic Symbols; vowels and diphthongs; consonants in respect of the manner and the place of articulations; the application of phonetic symbols in dictionaries. After this fundamental stage, participants are expected to have the ability to pronounce every word shown in a dictionary.

Part II: Fluency: the differences in accents between General British and General American, Australian and others. Stress and weak form of words. Sounds changes in connected speech: assimilation, elision and linking; introduction to intonation.

The course is instructed in Cantonese and English to help participants to understand the bilingual differences and the causes of common errors in pronunciation.

(Entry requirement: age 16 or above)

實用英語語音學課程

Practical English Phonetics and Phonology

本課程主要教授英語語音的要義及應用法則，從而提高學員的發音及聆聽水平。課程分成兩部份：

第一部份

本部份首先指出香港人普遍的發音問題及成因，解釋學習英語發音的重要性，並以深入淺出的方法介紹英語語音學(Phonetics)的要義。範圍包括：英語元音(vowels)及輔音(consonants)的概念及發音方法；國際音標(IPA)的認識；記憶音標的快速方法；應用音標的技巧【包括：音節、重音及成節音】等。本部份亦同時指導學員如何利用本會專用網頁資源及使用優質的英語字典及電腦軟件，以提高學習效率。完成本部份課程後，學員應能利用字典內的音標，準確拼讀英美讀音，避免了一般人只靠「看字母估讀音」而產生的錯誤。

第二部份

能清楚準確讀出英文生字，不就表示能說得一口流利動聽的英語。本部份重點教授說流暢英語的學問，以及解決聆聽方面產生困難之原因，這些亦是最易為人忽略的實用英語語音學課題。教授內容包括：認識語句中的強弱及重音與節奏；結構詞的弱讀；英語變音的同化、省略及連音；語調結構及其表義功能；-ed 詞尾的讀音規律；英美澳口音的分別等。完成此部份課程，學員對英語語句的流暢規律的認識將會大大提升，對會話及英語聆聽均有莫大的幫助。

(本課程適合 16 歲或以上人士報讀)
